

MIOX® Applications in the Beverage Industry

On-Site Generation can be applied to all aspects of water treatment and process equipment cleaning in a beverage plant. Using on-site generated chemicals for cleaning and disinfection can provide numerous economic and environmental benefits.

About MIOX Corporation

MIOX Corporation (www.miox.com) is focused on solving one of the world's most pressing issues: the need for affordable, safe, and healthy water. MIOX's patented on-site water disinfection technology safely and economically generates either hypochlorite or advanced mixed oxidant using just salt, water and power, replacing the need to purchase, transport and store dangerous chemicals. MIOX is safely used in over 30 countries for public drinking water systems, water reuse projects, and non-municipal applications including the food and beverage, power, and aquatics and leisure industries.
