

## Vault™ Self Cleaning MIXED OXIDANT Specifications

MIOX Corporation's new VAULT™ small series on-site generator is the first of its kind. Designed for high efficiency, low lifecycle cost, durability and reliability, the self-cleaning VAULT with self-adjusting flow control is virtually maintenance free. With over 40% improved salt and energy efficiencies and a new self-cleaning system, the VAULT is built for cost-effective, problem-free operation. The VAULT features an easy-to-upgrade cell to convert between sodium hypochlorite and advanced mixed oxidant with expandable capacity for the ultimate flexibility. Using just salt and power to generate a dilute chlorine-based solution eliminates the storage and handling of hazardous disinfection chemicals while providing a chlorine residual.
